# IDP Azure AD - OpenID Connect
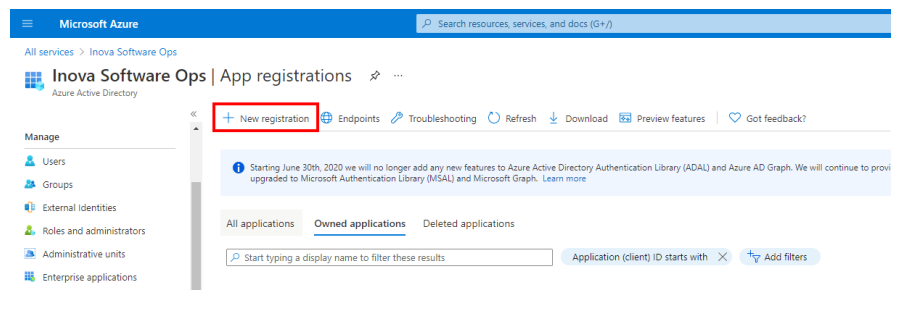

Instructions

| | |
|---|---|
| **Sign in** to your **Azure Portal** |  |
| Click on **Azure Active Directory** |  |

| | |
|---|---|
| Click on **App registrations** on the left side menu |  |
| Click on the **New registration** button |  |
| **Register an application**<br><br>1. **Name the application** as you wish (e.g. "Inova")<br>2. Select **Accounts in this organizational directory only (Inova Software Ops only - Single tenant)**<br>3. Redirect URI:<br>**https://auth.inova-application.com/auth/realms/<realm_name>/broker/oidc-azure/endpoint**<br><br>⚠ **IMPORTANT: Please ensure that the domain auth.inova-application.com is whitelisted on your end**<br><br>⚠ Replace **<realm_name>** by the one provided by Inova.<br><br>Then click on **Register** |  |
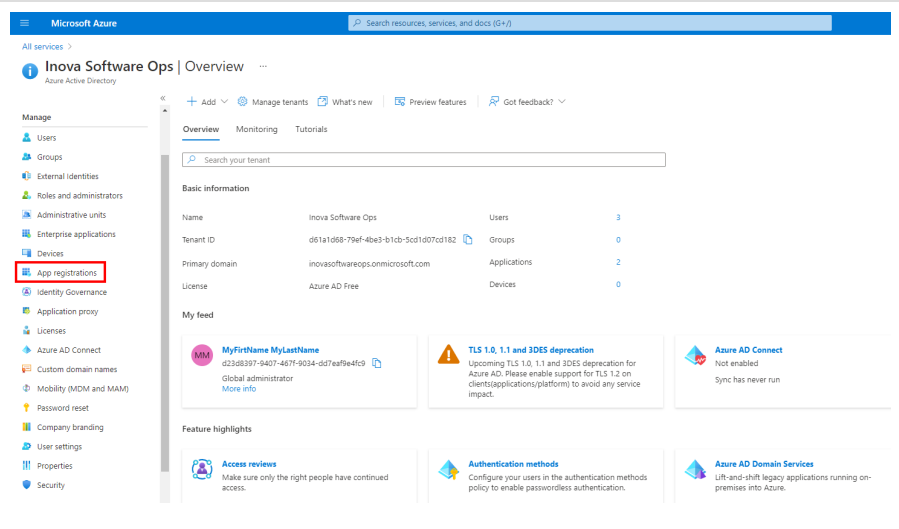

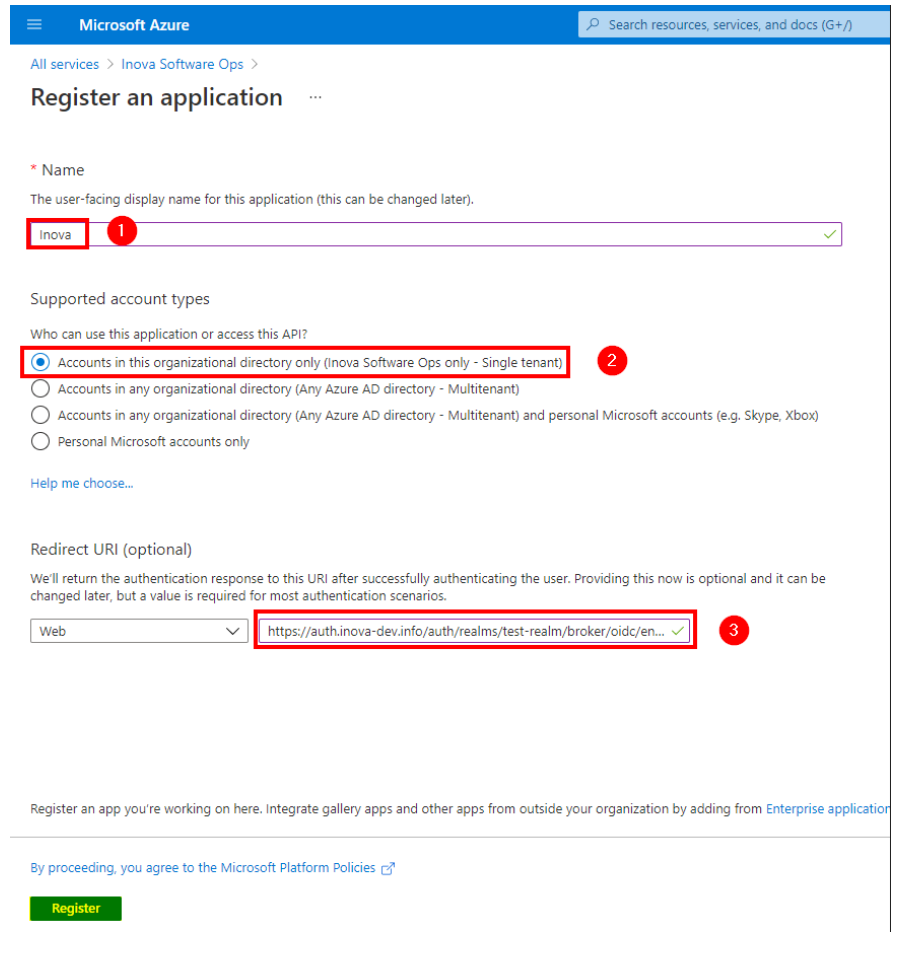

1. On the left side menu, click on **Authentication**
2. Under "Implicit grant and hybrid flow", select **ID tokens (used for implicit and hybrid flows)**
3. Click on **Save**

1. On the left side menu, click on **Overview**
2. Click on **Endpoint**

## Endpoints

Copy the **OpenID Connect metadata document** link and **note it** for later.

It will be needed to continue setting up the SSO on Inova's end

It should be something like:

**https://login.microsoftonline.com/{tenant-id}/v2.0/.well-known/openid-configuration**

---

Still on the **Overview** page:

Copy the **Application (client) ID** and **note it**.

It will be needed to continue setting up the SSO on Inova's end

---

Still on the **Overview** page:

Click on **Add a certificate or secret**

| | |
|---|---|
| Click on **New client secret** |  |
| 1. **Description:**<br>Enter a relevant **Description** (e.g. "Inova-\<year>")<br>2. **Expires:**<br>Select **24 months**<br>3. Click on **Add** |  |
| From the the **Certificates & secrets** page:<br><br>1. Copy the **Client secret value** and **note it**.<br><br>It will be needed to continue setting up the SSO on Inova's end<br>2. **Copy** the **Expiration Date** and **note it** |  |
| Click on **your organization name** |  |

| Click on **Enterprise applications** |  |
|---|---|
| Click on **the application you just created** |  |
| 1. Click on **Users and groups**<br>2. **Add the desired users/groups**<br><br>⚠️ **Make sure that the Inova users are allowed, otherwise they won't be able to sign in to the application.** |  |

Send the elements you noted previously to Inova:

1. **OpenID Connect metadata document**
2. **Application (client) ID**
3. **Client secret**
4. **Client secret Expiration Date**
